Class Will

John Stevens

We, the Classical High School graduating class of 1938, being located in Worcester, Mass., having been adjudged by a board of competent alienists to be of sound mind, memory, and understanding, and being fully acquainted with the frailties of this mortal life, do collectively make our first, last, and only will and testament in manner and form following.

We hereby give, devise, and bequeath to Mr. Fenner and the members of the faculty of the aforementioned high school our appreciation and gratitude for their help and guidance throughout the four years we have studied in this institution of learning.

To the Juniors, we leave hearty congratulations as they will soon step into our shoes and reach that pinnacle marked in large letters, "Reserved, for Seniors only."

We leave nothing to the ostentatious Sophomores but pity for their attempts to imitate the high and noble seniors.

To the Freshmen and all future Freshmen we leave our sympathy for the four years which they face.

We leave to all honor students of our class our high admiration and our sincere hopes for their continued success. To all students we leave the everlasting trite, humorous, and unforgettable subject of our vest-pocket gym.

From the archives of our class several people have personal bequests. These follow:

Edward Yarock leaves his oratorical gift to Robert Simonian.

Nancy Orrell leaves to some stenographically minded Junior the privilege of sitting on the right of the official timekeeper during basketball games and making notations in a score book. "Stu" Gibbs recommends Jean Tiger.

"Blazing Mike" Trychon leaves his football and track ability to one Robert Green. These two gifts will no doubt be used by the receiver to give Classical that football championship which we saw slip through our fingers one night last fall.

Robert Alpert leaves the memory of Thespian love-making to Richard Abbot.

Paulyn and Arlyn Dick, they of the twinkling baton and toes, leave these said gifts and their musical ability to their brother and sister.

Class Will cont'd.

"Bunny" Schorr leaves his duties as office boy to Waldo "Ping Pong" Fielding.

Morton Esterkes and Wilfred Falling leave, to some daring person, one large conglomeration of "flashy" suspenders, brazen shirts, and "loud" socks. Will falling also leaves, to be used by any teacher as chastisement for Freshmen, his musical composition, "Children's Day at the Morgue."

Betty Winchell has left to her sister Grace the ability she herself has for making friends.

Ed Staruk, our slugging baseball captain leaves his batting eye to Paul Kearney to use at any crucial moment during a game.

Alice Arey, leaves her histrionic ability to a worthy actress, namely, one Barbara Alix.

"Tiny" Andruski leaves a tie with the words, "Hello Mr. Weed." to our biology teacher.

Virginia Day leaves her good humor and representative popularity to Virginia Hair.

"Stutz" Modzelewski leaves to "Franny" Reardon the use of his right, or shooting, eye.

Mr. O'Regan, whom we claim as ours, leaves a mechanical olfactory nerve to some successor; said smelling instrument will help detect "fishy" excuses.

To any and all who are discontented, because of lack of personal mention, we leave our hopes that they may rise from mediocrity to honorable mention.

In witness, whereof we do solemnly set our hand and affix our seal this Twenty-second day of June in the year of our Lord, One Thousand Nine Hundred and Thirty-eight.

CLASSICAL SOUVENIRS

"STUTZ" DOES IT AGAIN!

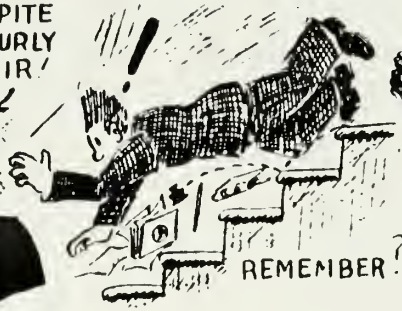
THOSE CAFE SCENTS

"JACK" ANDRUSKI CERTAINLY DID HIS SHARE ON THE FOOTBALL TEAM

"BOB" MAHER ATTRACTED THE "FEMMES" IN SPITE OF "BOB" ALPERT'S CURLY HAIR!

THE SCHOOL CUT-UP

"CHARLIE" PARKER WAS A DEAD SHOT WITH A PIECE OF CHALK

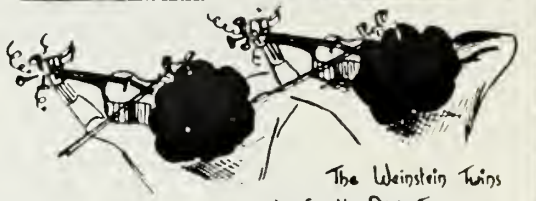


REMEMBER?

RUTH MALLEY FINALLY GOT THAT 75th SPECIMEN

CHAS. STEWART

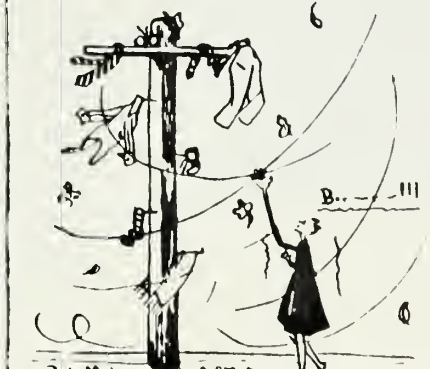
"Stutz" is going to show 'em how the game is played—



The Weinstein Twins play for the Dick Twins

(Yes - they dance too!)

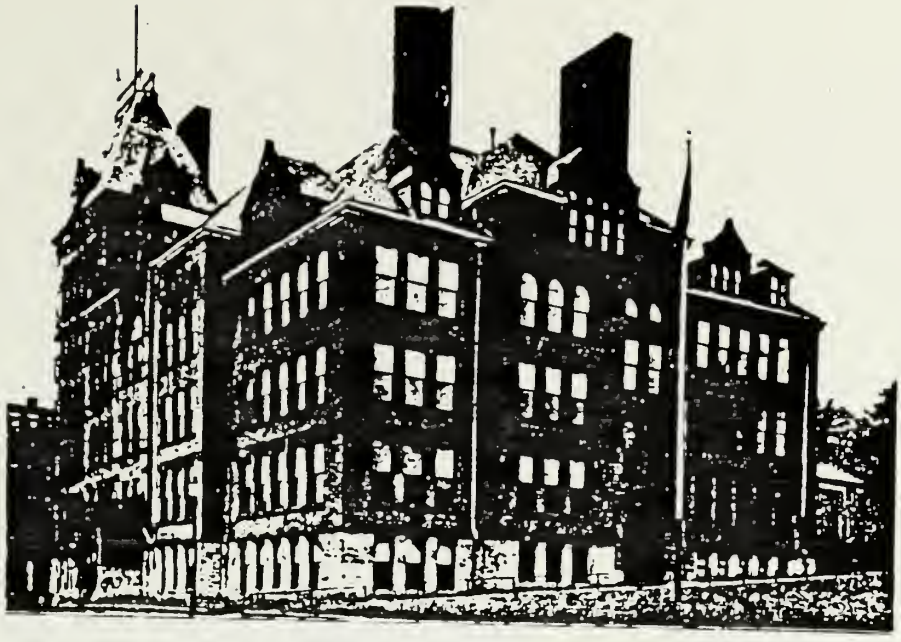
I'm still wondering what made Ang-Louise Bradeur jump in my "PD" class — Was it Ed Staruck's socks - sweater - or just plain Eddie ???



Bob Maher got promoted to the office of assistant manager after the Fitchburg Classical basketball game! (losing St too!)

We girls have had to be on the 'careful' side' — There's been plenty of tacky things going on! (and that ain't all)

N. O'Neill



CLASSICAL HIGH SCHOOL

We were before television. Before penicillin, the pill, polio shots, antibiotics, and frisbees. Before frozen food, nylon, dacron, Xerox, and Kinsey. We were before radar, fluorescent lights, credit cards, and ball point pens. For us, time sharing meant togetherness, not computers; a chip meant a piece of wood; hardware meant hardware; and software wasn't even a word. In those days, bunnies were small rabbits and rabbits were not Volkswagons.

We were before Batman, Rudolph the Rednose Reindeer, and Snoopy. Before DDT and vitamin pills, vodka (in the United States), and the white wine craze, disposable diapers, jeeps, and the Jefferson nickel. Before Scotch tape, M&Ms, the automatic shift, and Lincoln Continentals.

When we were in college, pizza, Cheerios, frozen orange juice, instant coffee, and MacDonalds were unheard of. We thought "fast food" was something you ate during Lent.

We were before FM radios, tape recorders, electric typewriters, word processors, Muzak, electronic music, and disco dancing. We were before pantyhose and drip-dry clothes. Before ice makers and diswashers, clothes dryers, freezers, and electric blankets. Before men wore long hair and earrings and women wore tuxedos. We got married first and then lived together. How quaint can you be?

In our day, cigarette smoking was fashionable, grass was mowed, coke was something you drank, and pot was something you cooked in.

In our time, there were five-and-ten-cent stores where you could buy things for five and ten cents. For just one nickel, you could ride the streetcar, make a phone call, buy a coke, or buy enough stamps to mail one letter and two postcards. You could buy a new Chevy coupe for $600; but who could afford that in 1938? Nobody! A pity, too, because gas was eleven cents a gallon.

We were before vending machines, jet planes, helicopters, and interstate highways. In 1938, "Made in Japan" meant junk, and the term "making out" referred to how you did on an exam.

We were not before the difference between the sexes was discovered, but we were before sex changes. We just made do with what we had.

This is "THE WAY WE WERE" - and WE LOVED IT!!!

Attended Becker College but decided that business was not my forte. So I went to CA where I attended Curtiss Wright Tech and became a licensed aircraft and engine mechanic, earning my instructor rating. After a 4 yr apprenticeship at Lockheed, I worked the next 34 yrs. there including as instructor, field service rep and engineer, travelling extensively to service various airlines whom we serviced. Married in 1942, my wife, Virginia, and I had 5 children, the oldest of whom, Fred, was killed in a Naval air crash in 1964. I lost my wife to cancer the same year. In 1965, I married Froncie and it has been a happy and rewarding marriage. In Hemet, we live in a mobile home with fruit trees and gardens. We love to fish and camp and have travelled extensively. We moved to FL 8 years ago-fed up with fickle weather and ever burgeoning highway traffic of NY after 35 years. It's great here-we windsurf (learned in Nantucket 7 years ago), play tennis almost every day, ALL YEAR LONG, bicycle, golf, and after 46 wonderful years sailing on the matrimonial seas, we completeley enjoy one another and the 'laid back' life style of the tropics. Last year I found a new facet to the music business [News clipping summary: the Contemporary Quartet presents a musical program entitled, "Changing Times X 4" to students in the Florida school system which illustrates how music has changed through the years and directly involves the assembled students' participation in the musical program] When I receive the completed schedule for this school program we can determine the possibility of flying up to the reunion. Marcia and I send you all our warmest regards and truly hope we will be able to celebrate with you. P.S. We miss our two sons, daughters-in-law, and grandchildren, who all live on Long Island. Maybe we should have given them our address when we moved !!??

I entered Holy Cross in Sept, '38 but left in Oct. due to a severe football injury. I returned in Sept. '39 and due to the war, we (the college's Centennial Class) graduated on a cold, snowy day in Feb. '43 in the Dining Hall. I was the first in my class to be married and my first job was as a basketball coach/teacher on Martha's Vineyard. It was like an extended honeymoon. The next year, I took a position as Athletic Coach/teacher at Power Memeorial Academy, NYC. After 3 years, we returned to New England where I was Building Superintendent then teacher in Needham, MA. I worked part-time in Real Estate and finally, with 3 daughters to help through college, I went into Real Estate full time and resigned my school position in 1958. Three years later, I opened my own office on Route 20 in Sudbury, MA, where I worked until our retirement two years ago - to Martha's Vineyard where we started. We all have our ups and downs and I can honestly say my greatest "up" was our senior year in good old Classical!
